

Publication ethics and malpractice statement

By submitting a manuscript, **Authors** attest that their manuscript has not been previously published or accepted for publication elsewhere. All sources must be duly cited by authors, and appropriate references provided for any third-party works included in the manuscript. Please note that submitted manuscripts are subject to checks in order to detect instances of plagiarism.

All submissions to the *Journal of Elementary Education* are double-blind peer reviewed. **Reviewers** are obliged to report to the Editor-in-Chief cases of conflict of interest and to treat all manuscripts as confidential, and may not reveal them to, or discuss them with, third parties. The peer review process must be objective, without personal criticism. Reviewers must express their position clearly and accurately, giving relevant arguments.

The **Editor-in-Chief** of the journal is responsible for deciding which submitted manuscripts are appropriate for publication. In taking decisions about the acceptance of a manuscript, the Editor-in-Chief may consult the editorial board or the reviewers. All submissions, both those rejected and accepted for publication, will receive an answer from the editors.

Authors, Editors and Reviewers should follow guidelines and standards developed by the [Committee on Publication Ethics \(COPE\)](#).
